Subject: FW: Former George AFB Fall 2015 Basewide Groundwater Sampling Event
Attachments: George Fall 2015 GW Sampling Tech Memo.pdf

My apologies, it appears that I had attached only the text last night. Here is the full document with Table 1 and Figures 1 and 2 attached.

Thanks

Chris

Subject: Former George AFB Fall 2015 Basewide Groundwater Sampling Event

BCT Members,

Please find attached a tech memo outlining details of the upcoming Fall 2015 basewide annual groundwater monitoring event at former George AFB. The field work is presently scheduled to commence on October 12th, 2015, and is estimated to last approximately 2-3 weeks.

Per the recent Water Board request, we have modified the BCT Meeting Agenda to include a brief presentation of the upcoming Fall 2015 groundwater sampling event. It will include information from the Fall 2015 Proposed Well Sampling

Tech Memo in addition to supporting materials such as 2014 AMR flow and concentration figures. The main purpose of the presentation is to briefly outline the rationale for the selected Fall 2015 well list and to provide a forum for discussion, if required. Should you identify any major issues with the Tech Memo warranting discussion during the BCT meeting, we request that you give us some informal, advance notice of those issues, by email. This will allow us to give the best presentation possible.

Please feel free to contact me if you have any questions.

Regards,

Chris
